

What do I need to know about the IPQ in Year 5?

We are introducing an exciting, ambitious interdisciplinary project in Year 5 from September 2025.

Here are some of the key things you need to know.

Why?

Developments in technology are moving exceptionally fast. More than ever, students need to be developing real-world, human skills to prepare them for the future.

Assessment

Students will work as part of a group, but their contribution will be assessed separately. The IPQ is a recognised qualification. Students can also be awarded badges for leadership.

What?

Students in Year 5 will undertake a collaborative project in ethical entrepreneurship and sustainability, responding to the human and environmental costs of fast fashion.

We need your help!

Could you speak to Year 5 about ethical business practice? Do you know about the textiles industry? Could you assess pitches as part of a Dragon's Den? We'd love to hear from you. Please contact the phase leader.
