

Scholarship *Programme*

YEAR 7 - SEPTEMBER 2027 ENTRY

Habs
HABERDASHERS'
GIRLS' SCHOOL

Introduction

Dear Prospective Habs Scholar,

At Habs, our purpose is to ensure that every student who joins our school is empowered to make a profound impact on the world. We want each young person in our community to develop the confidence, vision, and character to lead and make a lasting, positive difference.

This ambition underpins our entire philosophy. As a highly selective school, many of our students are recognised as gifted across multiple contexts. For that reason, our approach to teaching and learning is academically ambitious for all. We expect every student to be challenged beyond the confines of any examination syllabus, engaging deeply with ideas and thinking with intellectual rigour.

SCHOLARSHIP PROGRAMME

We nurture curiosity, critical thinking, and independent thought. By fostering a love of learning that extends far beyond the classroom, we enable students not only to achieve excellence in examinations and reach their higher education aspirations, but also to develop a lifelong passion for knowledge and discovery.

We offer a range of specialist scholarships at Year 7 (11+) and Year 12 (16+), alongside academic scholarships for both prospective and current students. The programme is inclusive: while scholars benefit from additional stretch and opportunities to advance their passions, much of what is available to them enriches the wider student body. Scholarship at Habs is a mindset that inspires the whole school, not just those formally recognised.

That said, we set the highest expectations for our scholars. We support them in taking on dynamic leadership roles within the

school, where they act as role models who inspire ambition and curiosity in their peers. They demonstrate courage in engaging with challenging ideas, resilience in the face of difficulty, and generosity in sharing their knowledge and skills to strengthen the school community.

A Habs scholar is also expected to maintain a breadth of interests and to show wholehearted commitment to school life in its fullest sense. Academic scholarships reward those who consistently embody our values and who we believe will make a positive and leading impact across the school. Specialist scholarships recognise students with the potential to excel and to lead within their chosen field.

We look forward to exploring this further with you and wish you every success in your application.

Dr. Hazel Bagworth-Mann
Headmistress

The *programme* *summary*

What is scholarship at Habs?

Scholarship at Habs combines key academic and personal attributes which reflect our overall values and habits, the guiding principles that help our students find their direction, shape their own path and grow with confidence, purpose and character.

Ambition - A scholar has the ambition to take their work to the highest level possible, demonstrating **initiative** in seeking new opportunities, **resilience** when faced with challenge, and a commitment to **continuous learning** as they strive to grow and improve.

Curiosity - A scholar is deeply curious and will take and make opportunities to explore their interests further. They demonstrate **open-mindedness** by considering new perspectives, **critical thinking** by questioning and analysing ideas, and **creativity** by making connections, solving problems and generating innovative approaches to their learning.

Courage - A scholar is courageous in seeking to go beyond their current understanding, challenging themselves to overcome preconceptions and develop their thinking, demonstrating **integrity** in their pursuit of knowledge, **leadership** in inspiring and supporting others, and **risk-taking** in embracing new ideas, perspectives and challenges.

Community - A scholar is committed to sharing their knowledge, skills and understanding and is eager to engage with others in developing these further, demonstrating **collaboration** in working effectively with others, **care** in supporting and valuing those around them, and **social responsibility** in using their talents and knowledge to make a positive contribution to their community.

We believe all our students should try their best to display these attributes consistently throughout their time at Habs, which is why much of our scholarship programme is available to all our students.

Those students who demonstrate these attributes, and do so to the highest level consistently through their school career, will be recognised formally as scholars.

Our scholarships

Our entry points for our scholarships are in Year 7, and Year 12. Assessments take place the preceding academic year, all details can be found on our [website](#).

	Academic	Art	Drama	Creative Writing	Music	Sport
Year 7 (11+)	*	*	*	*	*	*

Applicants are advised to apply for no more than one specialist scholarship. All applicants are automatically considered for an Academic scholarship.

For students who are already at Habs (moving into Year 7), students will be nominated for an Academic scholarship. Please read the Academic scholarship section for more details.

The final decision on all scholarships is made by the Headmistress. The number and type of scholarships awarded each year will be at the School's discretion and information can be found in our Admissions Policy which is available on our website.

All students (both new students and current Habs students) must complete an application form for all scholarships, excluding academic.

The deadline for submission for all scholarships is Friday 6 November 2026.

Our scholarship programme

Our expectations of scholars

We have extremely high expectations of our scholars and they play an exciting leading role in our school. We expect our scholars to consistently display the Habs scholarship attributes and be a role model to other students in reflecting these values amongst the school community. For example, a junior scholar might be expected to attend subject societies regularly and engage fully in broader super-curricular opportunities provided by departments such as competitions and symposiums.

They will demonstrate ambition and curiosity in their subject matter to their peers. A more senior scholar would be expected to play a more leading role by delivering talks, running events and societies and inviting speakers. They will have courage to challenge themselves and regularly enjoy sharing their knowledge, passion and skills, having a positive impact on the school community.

Academic *scholarship*

What is the value of an Academic scholarship?

The value of a scholarship is usually between 10-15% of school fees (but can be up to a maximum of 25% in very exceptional circumstances). Scholarships are held for the duration of a student's time at the school, subject to sustained levels of progress, participation and performance.

External candidates 11+

How to apply

External candidates **do not** need to apply for an Academic scholarship.

How does Habs make their nominations?

STAGE 1

- After the Quest 11+ assessment, the Senior School will recommend a number of students for an Academic scholarship based on their academic performance.
- The nomination decision is at the discretion of our Headmistress.
- All nominated students will be informed in December 2026 and will be invited for an Academic scholarship interview during the 11+ second-round interview stage in January 2027).

STAGE 2

- The Academic scholarship interview will form part of the second-round 11+ assessment and will be part of the 30-minute interview. During the academic scholarship interview, Senior School staff will be looking for academic passion, engagement with academic and co-curricular life in school and a display and demonstration of our school values.
- External Academic scholarship students will not be assessed against internal Habs Year 6 girls.
- The final decision is at the discretion of our Headmistress. Scholarship offers are sent out on 12 February 2027 (with the main Habs Girls School offer).

Academic *scholarship*

Internal (Year 6) Habs Girls Pupils

How to apply

Internal pupils **do not** need to apply for an Academic scholarship.

How does Habs make their nominations?

STAGE 1

- The Head of Junior will recommend a number of Year 6 pupils for an Academic scholarship. The Senior School will review the recommendations alongside the supporting data. Nominations will be based on:

1. A combination of the Year 6 Autumn Term 2 Quest Standardised Assessments (Maths and English only) *and*

2. A range of historical data. This will include:

(i) Sustained academic excellence as evidenced by:

- Progress grades (minimum 2 years' worth), formal assessments, in-year assessments, baseline data tests and reports

(ii) Engagement and attitude as evidenced by:

- Form tutor recommendation, attitude to learning, consistent display and demonstration of our school values, engagement with academic and co-curricular life of the school and ability to uphold values of the school.

- The nomination decision sits with our Senior School and is at the discretion of our Headmistress.
- All nominated students will be informed in December 2026 and will be invited for an Academic scholarship interview at the Senior School (during our 11+ process in January 2027).

STAGE 2

- The Academic scholarship interview will be 30 minutes. During the Academic scholarship interview, Senior School staff will be looking for academic passion, engagement with academic and co-curricular life in school and a display and demonstration of our school values.
- Internally nominated academic scholarship students will be assessed against other Year 6 nominated girls (they will not be assessed against external 11+ candidates).
- The final decision is at the discretion of our Headmistress. Scholarship offers are sent out on 12 February 2027 (with the main Habs Girls School offer).

Art scholarship

The Art Department

We are fortunate to have a wonderfully well equipped art department with a team of talented artists who are committed to encouraging and inspiring our students to make extraordinary art.

Day to day, the department is always open; our Art department provides students with the opportunity to work with a vast range of media. We allow students to make their own choices and to use as much of our specialist equipment as they aspire to. We believe giving students the freedom to make their own choices allows them to take ownership of their own pathway.

Our department specialises in textiles, photography, graphic design and fine art. This includes anything from printing Bauhaus typography onto a T shirt to creating surrealism through ceramics. An Art scholar should be getting involved in as many opportunities as possible.

All Art and Design students benefit from our small class sizes and at GCSE level and A Level, we mainly work one-to-one with our students forming a partnership of creativity, aiding students in advancing their individual style and approach at life drawing and artist-led workshops. Students are also encouraged to look at other subjects on the curriculum through a creative lens, applying their artistic skills in new and imaginative ways.

Throughout the Lower School, topical subjects are referenced enabling them to connect their skills and ideas to new subject matter.

Art scholarship

What we are looking for in an Art scholar

Art scholars play a vital role in the department not just through their own engagement, but by encouraging other students to take part in the many activities we run in our thriving department.

Our scholars inspire us with their passion and ambition for the subject, taking advantage of the wide range of specialisms offered within the department and developing their knowledge and techniques outside of school through visits to exhibitions and their own research projects. We are looking for eagerness to master the craft of being a young artist rather than a finished product.

A portfolio with character and expression with refinements to be made is the one we are looking for at Habs.

Scholars are expected to make full use of the opportunities open to the school community, such as visiting artist workshops, trips and open studios and are encouraged to enter external competitions and to exhibit their work around school.

Art scholars are:

- Enthusiastic about Art, curious when visiting galleries in their spare time.
- Eager to question how processes work.
- Able to observe the world around them, being able to see differently to others.
- Not afraid to be vulnerable when experimenting.
- Personable, able to work as a team for community projects.

What is the value of an Art scholarship?

The value of a scholarship is usually between 10-15% of school fees (but can be up to a maximum of 25% in very exceptional circumstances). Scholarships are held for the duration of a student's time at the school, subject to sustained levels of progress, participation and performance.

How to apply

STAGE 1

Students should submit a portfolio of 6 to 20 pieces in a simply presented digitalised format, e.g. a PowerPoint. We will look at the student's potential rather than expecting highly finished work and welcome "work in progress" as part of the submission.

The portfolio should include current (completed within the last two years) examples of the student's independent work.

Examples may include:

- Observational drawing.
- Use of colour media.
- Ideas and compositions.
- Written analysis of art or design work/s which inspire the candidate's own work.
- Brief annotations explaining each piece or collection of pieces.

- All applicants must complete the [application form](#). This can be found in the *Admissions* section of each website under *scholarships*.
- Portfolios must be uploaded into the application form (25MB max).
- External students - references must be included in the application form (art teacher). For current Habs Year 6 pupils, we do not require references.

STAGE 2

After the entrance assessment, the Head of Art will select students, from those who have reached the required academic standard (external students only) and demonstrated their potential as an Art scholar to be invited for an interview. Current Year 6 Habs students will be selected for interview at the same time. This takes place in January.

Students will have the opportunity to talk about their work and will be asked questions about it.

They should attend with their physical portfolio although large scale pieces which are difficult to transport can be presented through photographs. In addition, students will undertake a short practical task.

Offers will be sent out in the post on 12 February 2027.

Creative Writing *scholarship*

The English Department

In English, students are encouraged to read widely and work creatively, developing an understanding of different literary forms, combined with an ability to appreciate a variety of interpretations.

The English department runs their own co-curricular reading programme, the Critical Reader Award, which encourages students to read a wide variety of texts. The department also offers a variety of co-curricular clubs and competitions. This includes House competitions such as the House Poetry Competition as well as one-off events throughout the year, such as World Book Day and National Poetry Day. Students in Lower 4 and Upper 4 (Years 7 and 8) take part every year in the Edna Judd Poetry Recital competition and in the national Poetry by Heart competition from Lower 5 (Year 9) upwards.

During the summer holiday, students are encouraged to take part in the Novel Writing competition, for which they write the first ten pages of a Young Adult novel; this competition is judged by a literary agent and students share extracts from their novels in a celebration evening.

Every year the department arranges a writer-in-residence who works with classes and with individual students, offering advice and guidance on their writing. Together with the Library, the department regularly arranges author visits.

Creative Writing *scholarship*

What are we looking for in a Creative Writing scholar?

Scholarships will be awarded to candidates who show exceptional potential as writers, demonstrating the capacity to write with originality and imagination. They will act as ambassadors for English among their peers and will hone their skills by taking part in writing opportunities throughout the school year.

These will include:

- The opportunity to contribute to department publications including The Edit, the termly school creative writing publication, and The Cornflower, the school newspaper.
- Workshops with the annual writer in residence and workshops with visiting writers throughout the year
- Participating in the Novel Writing and House Poetry competitions.
- Guidance and mentoring with entries for national creative writing competitions.
- The opportunity to undertake an Arvon writing course later in their writing career.

Successful candidates will demonstrate:

- Thoughtful and precise use of language.
- A willingness to experiment creatively.
- The ability to write in a clear and strong voice.
- Assured technical ability in the use of punctuation and grammar.

What is the value of a Creative Writing scholarship?

The value of a scholarship is usually between 10-15% of school fees (but can be up to a maximum of 25% in very exceptional circumstances). Scholarships are held for the duration of a student's time at the school, subject to sustained levels of progress, participation and performance.

How to apply

STAGE 1

All applicants must complete the [application form](#). This can be found in the Admissions section of each website under scholarships.

- Three creative writing pieces (no more than 750 words each) must be uploaded into the application form
- If you would like to, you can provide a supporting commentary of no more than 500 words. This is an opportunity to explain the background to your writing, your creative choices or anything else you would like us to know.
- Please provide information about your creative writing experience e.g. clubs, types of writing, any competitions entered and/or other successes.

STAGE 2

After the entrance assessment, the Head of English will select pupils from those who have reached the required academic standard (external pupils only) and who have demonstrated their potential as a Creative Writing scholar; they will be invited to an interview. Current Habs pupils will be selected for the interview at the same time.

During the interview applicants will be asked to talk through their previously submitted pieces of work.

Stage 2 will take place in January and offers will be sent in the post on 12 February 2027.

Drama *scholarship*

The Drama Department

One of the most exciting and forward-thinking Drama departments in the country, overseen by highly experienced teachers alongside directors and associates working within the industry, we aim to redefine traditional school practice to make bold, high-quality and transformative theatre in line with the UK's other leading Youth Theatre companies.

Across both Academic and Co-curricular Drama, we train students as dynamic theatre makers with an emphasis on process - challenging students to be storytellers, to take risks and discover their own voice, to create innovative, authentic and socially conscious work.

Each year we produce an ambitious and wide-ranging programme of work from large scale productions to studio shows, writing projects and collaborations with external partners. Work includes new writing, devising original work, adaptations of books and graphic novels and reimagining classical texts.

Students have opportunities to work alongside an incredible range of professional artists, including some of the country's leading theatre makers, movement directors and writers. Alongside this there is an extensive range of additional creative projects, workshops, acting training, House drama events, film-making and scriptwriting groups.

Students regularly achieve the highest possible marks for their examined devising and performance work. Each year we have a high number of students successfully auditioning to become members of the National Youth Theatre.

Drama *scholarship*

What we are looking for in a Drama scholar

Drama scholars are integral to setting standards and also helping to define the direction of the work we produce both in school and outside.

We are looking for potential, talent and a willingness to learn and grow rather than a finished article. Whilst it would be good to see some experience based on their interest in drama, it is not an advantage to have any professional experience. You do not have to have undertaken formal qualifications in drama or public speaking to consider applying. We are looking for students who demonstrate:

- Good natural instincts as a performer.
- The ability to listen, to affect the other person and be in the moment.
- Great energy, presence and playfulness.
- Openness to take risks and test themselves.
- Collaboration and ability to work as part of a group.
- An authentic voice, to demonstrate an interest in telling stories.
- An interest in the world around them and engaging their imagination.
- A desire to create their own work.
- A passion and curiosity about theatre, films, reading and other art forms.

In addition to being an ambassador for the department in terms of pro-active engagement and enthusiasm, a Drama scholar will:

- Take academic drama to at least GCSE level and hopefully on to A Level.
- Take part in at least one large-scale production each year for their appropriate age group.
- Take part in at least one additional co-curricular activity - New Views / film-making / open mic nights, taking on a leading role where appropriate.
- Take part in all appropriate House Drama events, leading where appropriate.
- Attend workshops, talks, theatre visits and actively seek further enrichment opportunities.

What is the value of a Drama scholarship?

The value of a scholarship is usually between 10-15% of school fees (but can be up to a maximum of 25% in very exceptional circumstances). Scholarships are held for the duration of a student's time at the school, subject to sustained levels of progress, participation and performance.

How to apply

STAGE 1

- All applicants must complete the [application form](#). This can be found in the *Admissions* section of each website under *scholarships*.
- External pupils - references must be included in the application form (drama teacher). For current Habs Year 6 pupils, we do not require references.

STAGE 2

After the entrance assessment, the Drama department will select pupils from those who have reached the required academic standard (external pupils only) and who have demonstrated their potential as a Drama scholar, to be invited for a workshop audition. Current Year 6 Habs pupils will be selected for audition at the same time. This takes place in January.

Offers will be sent out in the post on 12 February 2027.

Music *scholarship*

The Music Department

The music department at Habs is among the strongest in the country. It is central to life at Habs, exceptional in both its quality and breadth of opportunity. With over 70 ensembles rehearsing every week, over 20 major concerts per year, and lunchtime performance opportunities every week, our musicians are part of one of the most vibrant and diverse music programmes in the country.

Whilst we value all our musicians, our scholars are central to the ambition of our music school. We are proud to work with some of the finest young musicians in the country. We are committed to helping them realise their potential, and to broadening their horizons along the way. Guided by our expert staff, many of whom work with major London orchestras or hold similar positions in their diverse fields of expertise, we put the interests and passions of the student first, helping them to find their unique voice through music.

Music at Habs is in a very exciting place. As of September 2025, music is joint across Habs Girls and Habs Boys, offering more opportunities for all our students.

We visit concert halls in London several times a year (including St John's Smith Square and LSO), curate projects through recordings - our [Big Band](#) made a recording at the world-famous Abbey Road Studios and collaborate with drama to produce new work - 30 students across the schools recorded four original songs at [AIR studios](#) - a sound track to our recent drama production [The Video Store at the End of World](#)).

As well as the traditional orchestral instruments we have an exceptional jazz department, sending students every year to leading conservatoires in London and beyond. Since 2022 we are also delighted to offer tuition in Indian classical music, on instruments such as Tabla, Dhol, and Harmonium. We have exciting young songwriters, rock bands, composers, improvisers, one of the largest guitar orchestras in the country - all genres and styles of music are given equal importance; we want our leading musicians to guide our course of study, allowing them to shape what we offer with each generation that passes through the school. For any young musician who wants to discover their potential and experience a breadth of styles and opportunities along the way, Habs is the ideal place. Together with our talented young students, we are immensely excited about what the future holds for Habs Music.

SCHOLARSHIP PROGRAMME

What is the value of a Music scholarship?

There are two types of music award – scholarships and exhibitions.

The value of a scholarship is usually between 10-15% of school fees (but can be up to a maximum of 25% in very exceptional circumstances).

Scholarships are held for the duration of a student's time at the school, subject to sustained levels of progress, participation and performance

An exhibition gives free tuition on one instrument.

Music *scholarship*

What we are looking for in a Music scholar

Music awards are offered to pupils who show exceptional potential and innate musicianship.

We would expect students to demonstrate enthusiasm for music together with stylistic awareness and interpretative understanding.

Music scholars should exude an enthusiasm for all types of music. They should enjoy discovering new music and be itching to discuss it.

Students may be at any level on their instrument(s) and may have one or more instrument to offer. While most successful applicants are already at, or above Grade 6 on an instrument upon application, the department places significant value on rate of progress: students who have achieved Grade 4 or 5 in a very short space of time have also been successful in the past.

As a guide, the following criteria should help you decide whether to enter your daughter for consideration for a scholarship:

- Normally two instruments should be offered.
- Principal instrument – around grade 5 standard (grade 6/7 if piano).
- Second instrument – around grade 3 standard.

It is not essential that the actual grade assessment has been taken, but the candidate should be playing at this level. Contribution in both school and outside musical ensembles will also be taken into consideration.

How to apply

STAGE 1

- All applicants must complete the [application form](#). This can be found in the *Admissions* section of each website under *scholarships*.
- External pupils - references must be included in the application form (Music teacher). For current Habs Year 6 pupils, we do not require references.

STAGE 2

After the entrance assessment, the Director of Performance will select students from those who have reached the required academic standard (external students only) and who have demonstrated their potential as a music scholar; they will be called for audition. Current Year 6 Habs pupils will be selected for interview at the same time. Whilst a high level of technical capability is important, we are most excited to hear communicative performance and an authentic connection to music.

In the audition we hear students perform a piece (this could be on multiple instruments, though we do not require more than one), complete some brief musicianship tests, and do some sight reading. We also hold a short interview in which we want to find out more about the individual, and their interests in music.

Offers will be sent out in the post on 12 February 2027.

Sports *scholarship*

Sport at Habs

At Habs, sport helps us develop Active People, Good People and Ambitious People. We want students to enjoy being active, grow through challenge and develop the confidence and ambition to make the most of their potential.

Habs Sport scholarships recognise talented young athletes who demonstrate outstanding sporting ability, commitment and future potential. The programme sits within a broad and

inclusive sporting culture and is designed not simply to recognise what a student has already achieved, but to support what they might go on to achieve.

Sports scholars are expected to contribute positively to the sporting life of Habs and to Play The Habs Way through the way they train, compete, respond to feedback and setbacks, support others and represent the School.

What we are looking for in a sports scholar

Sports scholarships are awarded through a competitive assessment process. We consider a combination of:

- Current sporting performance and achievement.
- Technical and tactical ability.
- Future potential and rate of development.
- Athletic qualities appropriate to age and sport.
- Commitment, coachability and training behaviours.
- Character and the way the candidate Plays The Habs Way.
- The contribution the candidate could make to Habs Sport.

Candidates will normally show meaningful commitment and performance beyond school sport, although the nature of this will vary considerably between activities.

Representative honours, academy selection, rankings or involvement in a recognised performance pathway provide useful evidence, but no single achievement guarantees a scholarship.

Candidates would normally be expected to be involved within a recognised performance pathway, academy, representative programme or equivalent where such structures exist.

Scholarship structure

Award	Value	Purpose
Sports Exhibition	£500 per annum	Recognition for a talented young athlete demonstrating strong performance, clear potential and the attitude to develop within the Habs environment.
Sports scholarship	10-15% remission of school fees	For an outstanding young athlete demonstrating sustained sporting excellence together with significant future potential.
Major Sports scholarship	Up to 25% remission of school fees in exceptional circumstances	For a genuinely exceptional young athlete already performing at a particularly high level or demonstrating outstanding national/elite pathway potential.

The precise value of a Sports scholarship within the 10-15% range is determined through the formal assessment process. The number and value of scholarships available may vary from year to year and all awards remain at the discretion of the School. A Sports scholarship may be held alongside a means-tested bursary, subject to the School's normal bursary assessment and availability of funds.

Sports *scholarship*

How are Sports scholars supported?

Sports scholars are considered for enhanced support through the Habs High Performance Programme (HPP). Support is shaped around the student's age, sport, performance level, external pathway and individual need.

It may include:

- Regular performance conversations and reviews led by the most appropriate coach or performance contact.
- Strength & Conditioning and athletic-development support.
- Individual performance planning and appropriate profiling where required.
- Sports nutrition, performance psychology and wellbeing education.
- Video or performance analysis where appropriate.
- Targeted 1:1, small-group or sport-specific development/performance coaching where it adds value.
- Links with clubs, academies, governing bodies and external performance programmes.
- Support in managing significant sporting and academic commitments.
- Leadership and mentoring opportunities as students progress through the School.

The precise package of support is needs-led and may change as the athlete develops. The HPP operates through HPP Development, HPP Performance and HPP Elite, but holding a Sports Exhibition, Sports scholarship or Major Sports scholarship does not automatically determine a particular HPP level or guarantee every element listed above.

How to apply

The application and assessment process is aligned across Habs Boys and Habs Girls.

STAGE 1 - APPLICATION

Applicants complete the Habs Sports scholarship [application form](#), providing details of their sporting experience, achievements, current training and competition commitments, and any relevant club, academy or performance-pathway involvement. Applicants may be asked to provide supporting evidence or a reference from an external coach, club, academy or governing body.

STAGE 2 - ADMISSIONS AND SHORTLISTING

Applicants follow the normal admissions process for their School and point of entry. Following the relevant entrance assessment and/or admissions process, the Director of Sporting Operations and Development and the appropriate Sports scholarship panel review applications from candidates who have reached the required academic standard and identify those to be invited to the Sports scholarship assessment.

Entry points

The Habs Sports scholarship programme operates at the published scholarship entry points for the relevant School. The criteria and assessment process are aligned across Habs Boys and Habs Girls; applicants should refer to current Admissions information for the entry points available in their School and year of application.

STAGE 3 - PRACTICAL ASSESSMENT AND INTERVIEW

Shortlisted candidates attend a practical assessment and interview in addition to the usual admissions interviews. The practical assessment may include sport-specific activities, observation in competitive or game-based situations, and age-appropriate athletic profiling or fitness testing where this adds useful evidence. External performance evidence may also be considered.

Candidates will also take part in an interview with members of the Sports scholarship panel. This explores their sporting journey, motivation, commitment, coachability, character, future ambitions and potential contribution to Habs Sport.

STAGE 4 - PANEL DECISION

Assessment evidence is considered by the Sports scholarship panel. Scholarships are competitive and limited, and meeting the published criteria does not guarantee an award. Final scholarship decisions and the value of any award are approved through the School's normal scholarship and admissions processes and communicated by Admissions.

Offers will be sent out in the post on 12 February 2027.
